At present, the rural schools in New York state average but twentyseven pupils each. The expense of employing even a fairly competen teacher for so few children is a heavt burden.

The American manufacturers of agricultural implements have secured what is practically a monopoly of the agricultural implement trade of France and the demand for that class of goods is increasing rapidly.

The latest paraphernalia for preserving railroad ties consists of retorts which are transported to the place where the ties are stored in bulk. The sap is forced from the wood and is replaced with a saline solution.

There has finally been an arrest as a result of the investigation into the Postoffice scandal. The Postal au thorities appreciate that they have Peck. not yet secured the necessary evidence to warrant the arrest of the chief offenders but they are on the right track.

Now that the State Convention is over, we hope to be able to go through our mail without finding a dozen letters from politicians informing us of their great pleasure in knowing us to be a delegate to the convention and assuring us that our influence will greatly assist their comdidacy and inviting us to call at their headquarters etc., etc., Such ante-convention gush is disgusting to us.

Auditor Harding's recommendation for members of the county board of review for service in Wood county, has been approved by State auditors. The appointments are as follows: John B. Wilson, five years; Jacob one year. Mr. McMahan will be reappointed for five years when his first term expires.

At Cienfuegos, for instance, the United States furnished \$2,300,000 worth of imports out of a total of \$5,600,000. Cuba's total sugar crop amounted to \$5,472,000.

The way of the American emigrant to the Transvaal is not an easy one. Not to exceed 50 Americans can enter per month. Each of these is required to have a certificate setting forth among other things, that he has sufficient means to support himself and his family, if he has one, for a considerable period. It frequently requires weeks to secure this certificate and if the would-be emmigrant grows, impatient he is given the option of quitting the country within 24 hours or imprisonment for six months and paying a fine of over \$2,000.

The United States Fish Commission has a large undertaking before it when it tries to keep the waters of the United States stocked with fish. At the mouth of the Susquehanna the fishing is done with immense nets operated by steam tugs. As a result, 1,000 barrels of fish is not an unusual take at a single haul.

It may have been noticed that the discovery of \$2,000,000 worth of buried treasure was reported to have been made on Salt River.

RECEPTION TO GRADUATES.

On Thursday evening the class of 04 gave the graduating class a farewell reception. The lower halls of the school building were tastefully decorated in royal purple and white, the colors of '03, and in red and white, the colors of '04. The refresh. ment tables were adorned with cut flowers and when the two classes gathered with the High School teachers about them, there was a gay A single dealer in Hamburg sold, company of merry hearts This last social gathering increased the genial good feeling of the members of both classes. There were a number of good toasts given. Joe Meyer responded for '03 to the farewell given by Myra Amon of '04. Everet Neifer told the history of '03 as only a member of '04 could tell it. "The P. H. S." was the theme of Miss Eva Crawford's toast and "The Teachers" of Wright Pargellis's. Both the P. H. S. and its teachers received some unusual words of praise. We are glad to see such a loval spirit and such good fellowship among those who so recently figured as flag rivals, as was shown in this reception.

Birthday Suprise Party.

CEDAR POINT.

Delightful Summer Resort Opens for the Season.

Cedar Point, one of the most delightful summer resorts along the chain of inland seas, was opened to the public on Saturday last.

By special invitation of Manager Boeckling, newspaper men of Toledo, Cleveland, Columbus and other cities of the State were invited to visit the Point and be the guests of the company at a banquet.

Commodore Gunckel of the Lake Shore R. R. personally conducted a special train conveying the Toledo Press Club and their ladies to Sandusky City and to Cedar Point, where the visitors were shown around the Point and given an excellent opportunity to observe its many features of interest as a Summer resort. The hotel, the bathing beech, the dancing pavilion, the theatre, the spacious dining hall, and scores of other features calculate to make it one of the most beautiful resorts along Lake Erie's shores.

For over two hours about 250 newspaper men and ladies who were seated at the elegantly appointed tables in the great dining hall, were dined, wined and toasted in a manner that would make a prince wish himself a newspaper man in order to enjoy such truly regal entertainment.

The elegant entertainment of the newsworkers was only a sample of the royal manner in which money has been expended to make Ceder Point a charming place to visit-every opportunity is offered for rest and enjoyment, or the jolliest kind of a time the visitor's heart may desire.

The members of Toledo Press Club and Commodore Gunckel for the courtesy of a delightful ride to Sanhome to enjoy themselves and make portion of the trip the train made time from three to five seconds better
